Transfer Options

1) **Fintiba Transfer**

With Fintiba Transfer we can offer you a fast local currency transfer without expensive exchange rates or additional transfer fees. Find out more in your Fintiba app under **Fintiba Transfer**.

2) **Regular International Bank Transfer**

Send your money via a regular international bank transfer. However, this is often more expensive and takes more time.

Important Information

1. The "Amount to transfer" (total amount + initial fee + EUR 100.00) contains a buffer deposit of EUR 100.00. This is a measure to issue your blocking confirmation quickly and avoid inconveniences from potential deductions of fees for international money transfers by intermediary banks. A detailed calculation of the "Amount to Transfer" is provided on the next page for your convenience. This buffer is NOT a Fintiba fee - you will receive the (remaining) amount from the buffer deposit with your first payout!
2. Please do not send more than the maximum deposit amount stated above. FIB AG reserves the right to return the exceeding amount (additional charges may apply).
3. Please note: **SWIFT transfers** to your blocked account may incur fees. To avoid charges when making SWIFT transfers, use the 'OUR' charge code. Transfers using 'SHA' or 'BEN' charge codes will be subject to fees per the bank's [service price list](#).
